

# meta morph

## 'The team building workshop for tomorrow's leaders'

MetaMorph is a School leadership and team-building workshop focussed on achieving cohesion between personal, team and task requirements in an experiential learning setting. The activities included in the MetaMorph workshop have been specifically designed to develop teamwork skills through problem-solving, communication, investigation, reasoning and collaboration. Light forms of competition between small groups build throughout the workshop towards larger team cohesion.

MetaMorph activities are designed to elicit fun in learning, whilst maintaining the safety and emotional needs of all participants.

### This interactive workshop aligns the following VELS expectations:

- Interpersonal Development (Level 6)  
Dimension – Working in teams
- Physical, Personal and Social Learning – Personal Learning (Level 6)  
Dimension – Managing personal learning
- Interdisciplinary – Communication (Level 6)  
Dimension – Listening, viewing and responding
- Interdisciplinary – Design, Creativity and Technology (Level 6)  
Dimension – Investigating and Designing
- Interdisciplinary – Thinking Processes (Level 6)  
Dimension – Reasoning, processing and enquiry

In addition, the MetaMorph workshop helps build confidence, both in personal ability and team understanding.

I really enjoyed Mr Peiniger's activities, especially the wood plank walk and the minesweeper game. We really enjoyed working on our leadership and teamwork and the games helped us bond with each other better. First we were split in into four groups and started the group games. The games involved 4 Skills; Strength, Smarts, Leadership and teamwork. I would recommend it to everyone and anyone. Five stars! \*\*\*\*\*

Year 6 MetaMorph Participant

The MetaMorph workshop is highly interactive; activities are hand on so students have the opportunity for skill immersion, practise and reflection on achievements.

**Suitable for:**

Year 5 - Year 9, and can assist with:

- identifying UbX 'd fYd Uf]b[ 'students for leadership roles
- Yb\UbW]b[ 'YUXYfg\]džZc`ck Yfg\]d 'UbX 'hYUa k cf\_

- preparation for School camps and further leadership development

**Duration:**

2.5 hours

**Included:**

- Set up and pack up for all activities
- Teacher observation sheets
- Skilled facilitation and debrief of activities
- Lesson plan and material for post-workshop classroom team activity

Michael came and worked with our two Year Six classes at the beginning of 2010. His team-building workshop was a great way to begin a year where pupils are encouraged to develop their leadership skills and work together in leadership teams.

The activities Michael had devised were engaging, interesting and relevant to the year level. The pupils were highly motivated throughout the workshop and were especially keen on the physical nature of the tasks. The combination between physical and mental activities meant it catered for all needs. It was fantastic to see the pupils working cooperatively and supporting each other to achieve a common goal. I would highly recommend Michael to work with Upper Primary and Lower Secondary pupils.

Angela Hawkins,  
Year 6 Coordinator, CCGS

I thought it was great having Mr Peiniger come and give both year 6 classes a session about teamwork at the beginning of the year. Mr Peiniger had us take part in some activities exercising our leadership skills. My team didn't go so well, but we all learnt how to effectively support each other and it really enhanced our teamwork skills.
